

"ADTC-AT" consists of type "ADTC" cable protected against mechanical injury and low frequency induction by impregnated paper and galvanized steel tape.

Capacitance: Design average mutual ac capacitance 0.085 uf per mile of cable. Maximum average not to exceed 0.092 uf per mile of cable at 60°F.

Intended for aerial use.

Code	Approximate Over-all Diameter (Inches)	Approximate Weight per Foot (Lbs.)
ADTC300AT	1.35	1.85
ADTC400AT	1.49	2.18
