NO. 200A ALARM DETECTOR

A.T.&T.CO.
STANDARD

Consists of a cylindrical shaped oxford gray ABS plastic base, which contains a circuit board, microphone and 9-volt battery; with an off-white colored plastic cover.

Detects the audio signal from a smoke detector and transmits a RF signal to the No. 100A Alarm Reporting Dialer.

Approximate overall dimensions are 3.5 inches in diameter and 1.25 inches high.

Two mounting anchors, screws and a 9-volt battery are shipped loose.

Initial use: Fire Alarm Reporting System.

Comcode: 103 749 347
