

KS SPECIFICATION
NUMERICAL AND CLASSIFIED
CHECKING LIST

Bell Telephone Laboratories

Research and Development Unit of the Bell System

APRIL 1, 1966

The first part of this checking list is a numerically arranged list of KS specifications covering telephone products for which there is a continuing demand. Reference is made to other known sources of information which are currently available on the various KS products.

The second part of this checking list covers the same specifications arranged in topical form.

The third part of this checking list is a numerically arranged list of KS specifications which have been rated Manufacture Discontinued.

This list will be reissued semiannually to indicate new, re-issued, and Manufacture Discontinued specifications.
