ERECTING, ALIGNING AND MOUNTING

TABLE OF CONTENTS

Listed below are the contents of this handbook as of the above date. Check the handbook against this list, order missing sections, UIS's (TI's) and TM's. Initial, date and file the Table of Contents in front of this handbook.

BSP requirements are covered in this handbook by inclusion in the methods section or reproduced as a separate section.

The quickest way of finding BSP figures referred to in the job information is to use Section 1C.

This Table of Contents is arranged to indicate the organizations responsible for the sections of the handbook. All inquiries pertaining to the contents of this handbook should be directed to the appropriate Regional Technical Assistance Center contact listed in Installation Engineering Handbook 3 (General Information, Section 0).

Section	Date	Responsible Organization	Subject
			LOCATION, ERECTING AND ASSEMBLY
UIS 0***	10-24-75	RM-2	Fastener Change Requirement
1A	5-24-74	RM-2	General Safety Precautions
1B	1-11-73	RM-2	General Requirements and Information
1C	1-24-72	RM-2	Cross Reference Between BSP Figures and HB Secs
4	12-04-52	RM-2	Determining Level, and High and Low Spots in Floors
-4.20	5-14-29	CB-7	Alignment of Units of Subscriber's Rotary Link Frames
			LAYING OUT OF FLOORS
6A	8-31-72	RM-2	Common Information, Requirements and Methods (Includes Specific Information for Common (System Bays and Racks)
6B	7-01-54	RM-2	Crossbar Offices - No. 1, Local and No. 4 Toll
6D	9-19-80	RM-2	Step-by-Step Offices
6E	12-04-52	RM-2	Manual Office (Local and Toll)
6V	8-31-72	RM-2	Verification Outline

***This UIS does not have a section associated with it, but affects all sections in Handbook 30.
