Service with Bahamas includes service with vessels which can be reached through its land radiotelephone stations. The rate is the sum of the Person rate shown plus the rates of the other carriers from the serving land radiotelephone station in Bahamas to the vessel. (T)

*Overseas Customer Dialed Telephone Service rates apply only to send-said Station dial type telephone communication. (T)

Dial type telephone communication denotes a call dialed and completed by the customer from a residence or business land wire telephone without the assistance of a telephone company operator. The services of a telephone company operator will not be used in connection with completing a call, or in furnishing any information or assistance relating to billing or charges for such call, except that a telephone company operator will:

- reestablish a call which has been interrupted after the called number has been reached, or
- reach the called telephone number where facilities are not available for customer dial completion.

Overseas Customer Dialed Telephone Service rates do not apply on calls originating at coin telephones.

Where Overseas Customer Dialed Telephone Service rates apply calls may not be placed on a third number basis.

COLLECT CALLS accepted: (1) TO and FROM United States Mainland except where Overseas Customer Dialed Telephone Service rates apply.

CREDIT CARDS: (2) Bahamas accepts Bell System Credit Cards except where Overseas Customer Dialed Telephone Service rates apply.

No additional charge is applicable for messenger service.

SPECIAL HOLIDAY SERVICE

Sunday rates apply on Christmas Day (December 25)
and New Year's Day (January 1) only when these
Holidays fall on Sunday.

Effective: January 19, 1974

1. The first step in the process of identifying a problem is to determine the scope of the problem. This involves identifying the specific area of concern and the individuals or groups affected by the problem. Once the scope of the problem is determined, the next step is to gather information about the problem. This can be done through a variety of methods, including interviews, surveys, and observation. The information gathered should be used to identify the causes of the problem and to determine the best course of action to take. Finally, the last step in the process is to implement the solution and to evaluate the results. This involves putting the solution into practice and then monitoring the progress to ensure that the problem is being solved effectively.

Service with Puerto Rico Includes service with vessels which can be reached through its land radiotelephone stations. The rate is the sum of the Person rate shown plus the rates of the other carriers from the serving land radiotelephone station in Puerto Rico to the vessel. (T)

*Overseas Customer Dialed Telephone Service rates apply only to sent-paid Station dial type telephone communication. (T)

Dial type telephone communication denotes a call dialed and completed by the customer from a residence or business land wire telephone without the assistance of a telephone company operator. The services of a telephone company operator will not be used in connection with completing a call, or in furnishing any information or assistance relating to billing or charges for such call, except that a telephone company operator will:

- reestablish a call which has been interrupted after the called number has been reached, or
- reach the called telephone number where facilities are not available for customer dial completion.

Overseas Customer Dialed Telephone Service rates do not apply on calls originating at coin telephones.

Where Overseas Customer Dialed Telephone Service rates apply calls may not be placed on a third number basis.

COLLECT CALLS accepted: (1) TO and FROM United States Mainland except where Overseas Customer Dialed Telephone Service rates apply.

CREDIT CARDS: (2) Puerto Rico accepts Bell System Credit Cards except where Overseas Customer Dialed Telephone Service rates apply.

- Credit Cards issued by Puerto Rico are accepted on calls to all points to which Bell System Credit Cards are accepted. Overseas Customer Dialed Telephone Service calls are not accepted.

NOTE: On calls from United States Mainland to Puerto Rico—Day, Evening, Night, Saturday or Sunday rates are in effect at hours specified above—Time at originating telephone in United States Mainland governs.

On calls from Puerto Rico to United States Mainland—Day, Evening, Night, Saturday or Sunday rates are in effect at hours specified above—Time at originating telephone in Puerto Rico governs.

Service with Virgin Islands includes service with vessels which can be reached through its land radiotelephone stations. The rate is the sum of the Person rate shown plus the rates of the other carriers from the serving land radiotelephone station in Virgin Islands to the vessel. (T)

*Overseas Customer Dialed Telephone Service rates apply only to sent-paid Station dial type telephone communication. (T)

Dial type telephone communication denotes a call dialed and completed by the customer from a residence or business land wire telephone without the assistance of a telephone company operator. The services of a telephone company operator will not be used in connection with completing a call, or in furnishing any information or assistance relating to billing or charges for such call, except that a telephone company operator will:

- (a) reestablish a call which has been interrupted after the called number has been reached, or
- (b) reach the called telephone number where facilities are not available for customer dial completion.

Overseas Customer Dialed Telephone Service rates do not apply on calls originating at coin telephones.

Where Overseas Customer Dialed Telephone Service rates apply calls may not be placed on a third number basis.

COLLECT CALLS accepted: (1) TO and FROM United States Mainland except where Overseas Customer Dialed Telephone Service rates apply.

CREDIT CARDS: (2) Virgin Islands accepts Bell System Credit Cards except where Overseas Customer Dialed Telephone Service rates apply.

NOTE: On calls from United States Mainland to Virgin Islands—Day, Evening, Night, Saturday or Sunday rates are in effect at hours specified above—Time at originating telephone in United States Mainland governs.

On calls from Virgin Islands to United States Mainland—Day, Evening, Night, Saturday or Sunday rates are in effect at hours specified above—Time at originating telephone in Virgin Islands governs.

No additional charge is applicable for messenger service.

SPECIAL HOLIDAY SERVICE

Saturday and Sunday rates apply on Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day or on the resulting legal holidays when Christmas, New Year's or Independence Day legal holidays fall on dates other than December 25, January 1, or July 4 respectively.

Effective: January 19, 1974

Report Title

Abstract: This report describes the results of a study conducted to investigate the effects of various factors on the performance of a system. The study was designed to evaluate the impact of different input parameters on the output of the system. The results show that the system's performance is significantly affected by the input parameters, and the study provides a detailed analysis of the underlying mechanisms. The findings are discussed in the context of the system's overall performance and the implications for future research.

1. Introduction: The purpose of this study is to investigate the effects of various factors on the performance of a system. The study was designed to evaluate the impact of different input parameters on the output of the system. The results show that the system's performance is significantly affected by the input parameters, and the study provides a detailed analysis of the underlying mechanisms. The findings are discussed in the context of the system's overall performance and the implications for future research.

2. Methodology: The study was conducted using a series of experiments designed to evaluate the impact of different input parameters on the output of the system. The experiments were designed to vary the input parameters and measure the resulting output. The results of the experiments are presented in the following sections.

3. Results: The results of the experiments show that the system's performance is significantly affected by the input parameters. The study provides a detailed analysis of the underlying mechanisms, and the findings are discussed in the context of the system's overall performance and the implications for future research.

4. Discussion: The findings of the study provide a detailed analysis of the underlying mechanisms, and the results are discussed in the context of the system's overall performance and the implications for future research.

5. Conclusion: The study provides a detailed analysis of the underlying mechanisms, and the results are discussed in the context of the system's overall performance and the implications for future research.

MESSAGE TELEPHONE SERVICE CONFERENCE SERVICE

INSTRUCTIONS

SERVICE

Subject to transmission and other limitations, message telephone conference service is available interconnecting three or more stations at Bell System and Connecting Company points within the United States and Canada and, where existing facilities and traffic arrangements permit, points outside the United States and Canada, including ships and aircraft reached over coastal harbor and high seas frequencies. Message telephone conference service is not available for mobile telephones reached over land mobile frequencies.

Service to Alaska, Bahamas, Bermuda, Dominican Republic, Hawaii, Jamaica, Midway, Puerto Rico, Virgin Islands and Wake comes under the classification of Overseas Service. However, conference calls involving these points are handled in the same manner as calls to points within mainland United States.

HOURS OF SERVICE

Service is available 24 hours a day.

A. Offices Without a Repeatered Conference Circuit

Except where it is definitely known that a call should be referred to an office other than the nearest conference circuit office, the originating toll center operator should reach the conference operator in the nearest conference circuit office listed above. Upon reaching the conference operator, the originating toll center operator should announce the call and then connect the customer directly with the conference operator. The conference operator will secure the details of the call, report, order, or inquiry from the customer and will assume control of the conference call.

B. Repeatered Conference Circuit Offices

Long Lines conference calls (that is, those on which the traffic between any two of the stations is Long Lines Traffic) which may involve transmission or routing problems as outlined in the Traffic Operating Practice should be referred to the Long Lines Traffic Circuit Supervisor at White Plains, N. Y. (914+320-2297), Staff Supervisors at Washington, D. C. (202+466-3278), Chicago, Ill. (312+641-8851), Kansas City, Mo. (816+391-2461), San Francisco, Calif. (415+442-2867) and Clerical Supervisor at Atlanta, Ga. (404+529-8031) as the case requires. The Supervisor will determine and quote the routes to be used. In some cases the routes so determined may require the conference operator to relay the call either in part or in its entirety to another conference circuit office for handling.

The above mentioned Supervisors' Offices are normally closed evenings, Saturday, Sunday and Holidays. During closed periods the Conference Chief Operator at Atlanta, Chicago, Kansas City, New York or Washington should be reached when assistance is required.

CLASSES OF SERVICE

Calls will be accepted on a station-to-station, person-to-person or appointment basis but the same rates are applicable in each case. Calls for persons who have no telephone will be accepted and an effort made to complete them. Except for Overseas Service an additional charge may be made for messenger service.

Collect calls will be accepted provided that the total charges will be billed against one called station. From telephones in the United States calls may be sent paid or collect or received paid or collect to and from points in the United States, Canada, and Mexico.

Additional charges may apply on collect calls between points in the United States and points in Mexico as specified in the Operating Rate and Route Guide for Mexico.

The regulations applicable to collect calls for Overseas Telephone Service and Ship and Aircraft Telephone Service are as set forth in the Overseas Telephone Service and Ship and Aircraft Telephone Service Rate and Route Guides, respectively.

Effective: October 20, 1973

MESSAGE TELEPHONE SERVICE CONFERENCE SERVICE

INSTRUCTIONS (Continued)

RATES

The rate material required to determine conference rates is available at each office where conference calls are handled and at each of the repeatered toll conference circuit offices listed above under "Routing". Rates may be obtained from the nearest conference circuit office. However, on conference calls involving Overseas points, Ships or Aircraft reach the Overseas or Marine Operator at the proper radio terminal office and secure the rate from her. (T)
(T)

CHARGES

Messages will be timed only by the conference operator who is in control of the bridging of the call, regardless of the point of origin, or whether or not some details of the call are relayed to another office for completion.

Chargeable time begins when connection is established between all the persons on the conference and ends when the connection is terminated at the originating station. When the originating customer requests that a station or stations be added to or disconnected from a conference call on which conversation is in progress it is considered as terminating the call and initiating a new call to the revised group of stations. (C)
(C)

When more than 10 main stations (or PBX trunks) are interconnected on one conference connection at any one time the minimum charge is that for a connection of 10 minutes. (T)

REPORT CHARGES

Report charges may apply on portions of uncompleted conference connections which include points in Cuba, Overseas points and ships and aircraft served through "Radio Link—Other Line Rate" Coastal Harbor Land Radiotelephone Stations.

Report charges apply where the entire call is cancelled after one or more chargeable reports have been received or on a collect call if the charges are refused and the calling party does not agree to pay for the call. If the call originates at an "Other Line" point, an Overseas point, or a point reached via a radio link, or when the charge is refused at such a point, the Report Charge is the charge applicable on the "Other Line", Overseas or radio link portion of the conference connection.

No Report Charge applies if any part of the original call is completed, although one or more chargeable reports may have been received.

PUBLIC LAND MOBILE RADIOTELEPHONE SERVICE

INSTRUCTIONS

A. GENERAL

1. Public Land Mobile Service is a communication service furnished through United States and Canadian Mobile Telephone Base Stations listed in F. following.
2. This service may be between a vehicle and a land wire telephone located outside the land mobile service area associated with such Base Station, between two vehicles served through Base Stations having different rate centers, between a vehicle served through a Base Station and a ship or aircraft served through Land Radiotelephone Stations established specifically for such purpose, or between vehicles and overseas countries or areas via overseas facilities.
3. This service is available to vehicles equipped for this service when within range of a Base Station through which such service is furnished, subject to transmission limitations.
4. Public Land Mobile Service may be on a manual or dial basis depending upon the operation of the Mobile Telephone Base Station.
5. Conference Service is not available to vehicles served through Mobile Telephone Base Stations.
6. Regulations applicable to Train Service are as specified in G. following.

B. HOURS OF SERVICE

1. Service is available 24 hours a day.
2. Operator handled calls received at any hour should be passed promptly to the appropriate Mobile Service Operator, who will advise whether service conditions will affect the completion of the call.

C. ROUTING

1. When Public Land Mobile Service is available at a point the Station Code is listed in the Operating Rate and Route Guide in the column headed "Mobile Office" and designates the Base Station through which vehicles equipped for this service may be reached.
2. The Mobile Telephone Base Stations listed in F. following designates the Station Code, Rate Center and the V-H Coordinates for the rate center. For those Base Stations where "Other Line" rates apply, the V-H Coordinates of the rate center for the point of connection and the "Other Line" rate applicable are shown.
3. On operator handled calls the Originating Operator should reach the Base Station using the regular route. Details of the call should be passed to the Mobile Service Operator, who will complete the call to the vehicle. The call will be ticketed and timed by the Originating Operator.

PUBLIC LAND MOBILE RADIOTELEPHONE SERVICE**INSTRUCTIONS (Continued)****D. CLASSES OF SERVICE**

1. Calls are accepted either to a specified person or a specified telephone as indicated below:

a. On Calls Through United States Mobile Telephone Base Stations

PUBLIC LAND MOBILE RADIOTELEPHONE SERVICE

INSTRUCTIONS (Continued)

E. RATES

1. On Long Lines interstate calls, i.e., between a vehicle served through a Base Station in one state and a wire telephone the rate center of which is in a different state or between two vehicles served through Base Stations in different states, the rates are the Dial Station-to-Station Day, Evening, Night or Weekend rates or the Operator Station-to-Station Day or Evening rates or the Person-to-Person Day or Evening rates as specified in Long Lines Schedule No. 1—(Interstate-United States) between the rate center of the wire telephone and the rate center of the serving Base Station, or between the rate centers of the two Base Stations located in the United States. (See Note.) (T)

When the connection involves a call to or from a transient land mobile unit, i.e., a land mobile unit communicating through a Base Station other than the Base Station with which it is normally associated, the call will be rated as an Operator Station-to-Station call except when the call is placed Person-to-Person in which case the Person-to-Person rates shall apply. (T)

2. For calls between a wire telephone in the United States and a vehicle served through a Base Station in Canada or between two vehicles when one vehicle is served through a Base Station in Canada, the rates are the DAY Person-to-Person rates as specified in Long Lines Schedule No. 2—(United States-Canada) between the rate center of the wire telephone and the rate center of the serving Base Station, or between the rate center of the Base Station in the United States and the rate center of the Base Station in Canada, except that the minimum rate is \$.45 for an initial period of 3 minutes and \$.10 for each additional minute. (See Note.)
3. For calls between a wire telephone in Mexico and a vehicle served through a Base Station in the United States or between a vehicle in the United States which is served through a Base Station in the United States and a wire telephone in Mexico, the rates are the Station-to-Station Day, Evening, Night, Saturday or Sunday rates or the Person-to-Person Day, Night, Saturday or Sunday rates specified in Long Lines Schedule No. 3—(United States-Mexico) between the rate center of the wire telephone and the rate center of the serving Base Station. (See Note.)
4. Where a call involves a point of connection with facilities to the Base Station in Canada or with facilities connecting to a wire telephone in the United States or Mexico, the total charge is the sum of the charge determined in accordance with the preceding, plus the "Other Line" charge from the point of connection with the facilities of the Canadian Carrier to the serving Base Station or the "Other Line" charge from the point of connection (the "Other Line" point) to the wire telephone in the United States, Canada or Mexico.

NOTE: In those cases where the connection involves an "Other Line" point, "Other Line" charges apply as specified in 4. DAY Person-to-Person rates apply on the "Other Line" portion of the charge.

INSTRUCTIONS (Continued)

E. RATES (Continued)

5. For calls between vehicles and Overseas countries or areas, the vehicle is treated as a wire telephone for which the rate center is that of the Base Station serving the vehicle. The rates and regulations applicable to this service are as set forth in the Overseas Telephone Service Operating Rate and Route Guide.
6. For calls between vehicles and ships or aircraft, the vehicle is treated as a wire telephone for (T) which the rate center is that of the Base Station serving the vehicle. The rate and regulations applicable to this service are as set forth in the Ship and Aircraft Radiotelephone Service Rate and Route Guide.

Initial and Additional Periods

Rates are quoted in terms of Initial and Additional Periods.

The Initial Period is 3 minutes or any fraction thereof except that the Initial Period for Dial Station-to-Station NIGHT rates—(Interstate-United States) is 1 minute. (T)

The Additional Period is for 1 minute or any fraction thereof. (T)

SHIP AND AIRCRAFT RADIOTELEPHONE SERVICE RATE AND ROUTE GUIDE

GENERAL INSTRUCTIONS**A. SERVICES**

Subject to transmission, atmospheric and like limitations, ship and aircraft radiotelephone service is offered between any land telephone and a ship or an aircraft, between a ship and an aircraft, between two ships or two aircraft, between a ship or an aircraft and a vehicle or between a ship or an aircraft and a Public Mobile Telephone on a High-Speed Train, through one or more land radiotelephone stations established for such service.

This service is furnished through High Seas, Coastal Harbor and VHF-Maritime Land Radiotelephone Stations listed in H. following, and Air-Ground Land Radiotelephone Stations listed in I. following.

B. ROUTING

If the calling party names the radio terminal office through which a ship or aircraft may be reached, route the call to the office so designated. Otherwise the originating toll center operator should reach the nearest High Seas, Coastal Harbor, VHF-Maritime or Air-Ground Radio Terminal office listed in H. or I. following, using the regular route. Upon reaching the radio terminal office ask for the Marine, Mobile or Aircraft Operator, whichever is appropriate, and repeat the full details of the call or inquiry to her. If the vessel or aircraft is in an area served by a different radio terminal office, the operator at the originating office will be guided by instructions given her by the Marine, Mobile or Aircraft Operator.

C. HOURS OF SERVICE

Although all ships and aircraft are not continuously in contact with a radio terminal office, calls should be passed promptly to the appropriate radio terminal office as outlined in B. preceding.

D. RATES AND REGULATIONS

The rates for service with ships and aircraft depend upon

- (1) the location of the land telephone,
- (2) the location and the rate-code classification of the ship or aircraft when served through a High Seas Station,
- (3) the location of the Radio Terminal Office rate center for ships or aircraft when served through a Coastal Harbor or VHF-Maritime Station,
- (4) the location of the Radio Terminal Office rate center for aircraft served through an Air-Ground Station,
- (5) the classification of the serving Land Radiotelephone Station,
- (6) the appropriate Radio Charge for service with ships and aircraft when served through Air-Ground, Coastal Harbor or VHF-Maritime Stations, and
- (7) Ship Surcharges as filed by foreign Ship Companies or Radio Room Operating Companies with the International Telecommunication Union—Geneva, where applicable.

Service is available on an Operator Station-to-Station or on a Person-to-Person basis except that when the ship or aircraft is served through a High Seas or Canadian Station Person-to-Person rates apply.

Land line charges are determined in the same manner as for message telephone service using Long Lines Schedules No. 1—(Interstate-United States), 2—(United States-Canada) and 3—(United States-Mexico) as appropriate.

SHIP AND AIRCRAFT RADIOTELEPHONE SERVICE RATE AND ROUTE GUIDE

GENERAL INSTRUCTIONS (Continued)

D. RATES AND REGULATIONS (Continued)

When the land telephone and the serving Air-Ground, Coastal Harbor or VHF-Maritime Station, i.e., Stations of This Company or its Concurring Carriers, are assigned to the same rate center, 0 mileage is treated as 1 mile. When the connection involves only ships or aircraft served through the same Coastal Harbor or VHF-Maritime Station, a charge as for 1 mile applies. (See Note.)

When the connection involves two ships, two aircraft or a ship and an aircraft served through the same Air-Ground, Coastal Harbor or VHF-Maritime Station of This Company or its Concurring Carriers the Radio Charge applies for each ship or each aircraft on the connection, except that when both ships or aircraft or ship and aircraft are served through the same station on a single channel, the Radio Charge applies only once. (See Note.)

NOTE: Rates and charges apply as authorized by local instructions when service is through an Other Participating Carrier's Station.

Calls may be filed for completion at a later time with the understanding that while they cannot be handled on a regular "Appointment Call" basis, an effort will be made to complete them as near the time specified by the calling party as possible. No additional charge will be made for this service.

E. REVERSAL OF CHARGES

Collect Calls are accepted to and from ships or aircraft except that Collect Calls are not accepted to

- (1) coded ships when served through High Seas Stations,
- (2) aircraft of the El Al Israel Airlines when enroute between New York and points in Europe when served through High Seas Stations, and
- (3) coded aircraft when served through Air-Ground Stations.

F. CHARGES

Messages may be timed by a controlling Marine, Mobile, Aircraft or Overseas Operator. These Operators will be responsible for supervising the message and notifying the originating Toll Center Operator as to the charges.

Report charges on uncompleted calls may apply to service through Coastal Harbor or VHF-Maritime Stations of Other Participating Carriers. The Marine or Overseas Operator will advise when such charges are applicable.

A charge for messenger service, consisting of the exact amount expended, if any, may be made on calls from ships or aircraft for persons who have no telephone.

G. WEATHER REPORTS

- (1) When weather reports and advisory storm warnings are transmitted from Coastal Harbor Stations no charge is made for this service.
- (2) Upon a request of a ship or aircraft, the Telephone Company will repeat the weather report, including the latest advisory storm warning, if any, last sent out from the Station. A charge of \$.50 is made for this service.
