MESSAGE TELEPHONE SERVICE
MEXICO
INSTRUCTIONS AND OTHER LINE COMPUTED CHARGES

File these Instructions and Other Line Computed Charge Table immediately preceding the Mexico Operating Rate and Route Guide.

RATES

Charges for calls to points in Mexico are computed either on a "Through Line" or on an "Other Line" rate basis as indicated by the listing in the Guide. V and H coordinates for each point are also shown and form the basis for the computation of the total charge on the "Through Line" point calls and for the United States portion of the charge on the "Other Line" point calls.

"THROUGH LINE" RATES

Where through line rates apply the charge is computed in the manner outlined in Paragraph 12. of the General Instructions using either the originating point specific table of coordinates or the CDR Table. It is important to note, however, that if the maximum "V" coordinate on the originating point specific table of coordinates is 9879 and the "V" coordinate for the called point exceeds this number then the CDR Table must be used. An example of the application of this rule is Reynosa where the "V" coordinate is 9882.

"OTHER LINE" RATES

Where other line rates apply the charge is computed as outlined in Paragraph 13. of the General Instructions. Either the originating point specific table of coordinates or the CDR Table is used to compute the United States portion of the call. It is important to note, however, that if the maximum "V" coordinate on the originating point specific table of coordinates is 9879 and the "V" coordinate for the called point exceeds this number then the CDR Table must be used. An example of the application of this rule is Rio Bravo, Tamaulipas, where the "V" coordinate is 9882. (T)

MESSAGE TELEPHONE SERVICE**MEXICO****INSTRUCTIONS AND OTHER LINE COMPUTED CHARGES (Continued)****RATE PERIODS**

Rate Periods applicable between points within the conterminous United States and points in Mexico:

- (1) To the United States portion of the charge, and to those points in Mexico where NO "Other Line" charge applies:

STATION-TO-STATION			PERSON-TO-PERSON	
DAY	EVENING	NIGHT	DAY	NIGHT
Mon. through Fri. 4:30 A to 6:00 P	Mon. through Fri. 6:00 P to 8:00 P and Sat. 4:30 A to 8:00 P	Mon. through Sat. 8:00 P to 4:30 A and All Day Sun.	Mon. through Sat. 4:30 A to 6:00 P	Mon. through Sat. 6:00 P to 4:30 A and All Day Sun.

- (2) To the Mexico "Other Line" portion of the charge:

STATION-TO-STATION		PERSON-TO-PERSON	
DAY	NIGHT	DAY	NIGHT
Mon. through Sat. 4:30 A to 7:00 P	Mon. through Sat. 7:00 P to 4:30 A and All Day Sun.	Mon. through Sat. 4:30 A to 7:00 P	Mon. through Sat. 7:00 P to 4:30 A and All Day Sun.

COLLECT CALLS

COLLECT CALLS are accepted on two-point and conference service between points in the United States (including Alaska and Hawaii) and points in Mexico. (T)

Additional charges may apply on collect calls between points in the United States and points in Mexico as specified on the pages of the Mexico Operating Rate and Route Guide.

COLLECT CALLS are accepted on two-point and conference service between points in Canada and points in Mexico. (D)

CREDIT CARDS

Mexico accepts Bell System credit cards for calls terminating in the United States or Canada or other countries and ships reached through the United States.

MESSAGE TELEPHONE SERVICE**MEXICO****INSTRUCTIONS AND OTHER LINE COMPUTED CHARGES (Continued)****OTHER LINE COMPUTED CHARGE TABLE**

(T)

Other line computed charges for all classes of service and for all points in Mexico are contained in a single Computed Charge Table.

The Table includes:

1. Initial period time other line rate for 3 minutes or fraction thereof.
2. Rate for each additional minute or fraction thereof.

NOTE. Since many initial period rates have two or more different additional minute rates, the computed charge used must be based on the proper additional minute rate. The additional minute rate to be used is the additional minute rate shown in the listing.

3. Other Line Computed Charges—Section A and Section B.

Section A—Shows for each initial period Time Other Line rate and additional minute rate the total charge for conversations up to and including 16 minutes.

Amounts in Section A must never be added together.

An amount in Section A may be added to one or more amounts in Section B to obtain the charge for a longer conversation.

Section B—Shows for each initial period Time Other Line rate and additional minute rate the charge for additional minutes of overtime in blocks of 10, 20 and 30 minutes.

Amounts in Section B should be used only for addition to an amount in Section A.

Amounts in Section B should never be used alone.

The total Time Other Line charge must be obtained either directly from Section A or by adding to an amount in Section A one or more amounts in Section B.

EXAMPLES

Suppose the chargeable time on a DAY Station-to-Station message is 16 minutes. As shown in the listing, the initial period "Time O.L." rate is \$1.30 and the additional minute rate is \$.40 per minute. In the Other Line Computed Charge Table, Section A, and in the column headed "16 Mins.", the total charge is found to be \$6.50.

Suppose the chargeable time on a SUNDAY Person-to-Person message is 21 minutes. As shown in the listing, the initial period "Time O.L." rate is \$3.30 and the additional minute rate is \$.70 per minute. In the Other Line Computed Charge Table, Section A, and in the column headed "11 Mins.", the charge for the first 11 minutes of conversation is found to be \$8.90. In Section B, the charge for 10 additional minutes is found to be \$7.00. Adding these two amounts gives the total charge for 21 minutes, namely, \$15.90.

THE TOTAL CHARGE FOR THE MESSAGE IS THE SUM OF THE CHARGES FOR THE TIME OTHER LINE PORTION OF THE SERVICE, DETERMINED AS ABOVE, AND THE CHARGE FOR THE UNITED STATES PORTION OF THE SERVICE, DETERMINED IN ACCORDANCE WITH LONG LINES SCHEDULE NO. 3—(UNITED STATES-MEXICO), (T) USING THE PROPER DAY, EVENING, NIGHT, SATURDAY AND SUNDAY STATION-TO-STATION OR PERSON-TO-PERSON COMPUTED CHARGE.

OVERSEAS TELEPHONE SERVICE**INSTRUCTIONS****A. GENERAL**

1. Overseas Telephone Service is offered between points within the conterminous United States, i.e., the District of Columbia and all states except Alaska and Hawaii, hereinafter referred to as United States Mainland, and countries or areas overseas, subject to transmission limitations.

The countries or areas with which service is available are listed in alphabetical order in the following pages. Each listing specifies the rate and route information applicable to the particular country or area.

2. The list indicates in most instances that service is available to all points within a particular country or area, however, it should be understood that there may be certain points within the particular country or area that cannot be reached by telephone.

3. Calls routed to or from or routed through a foreign country are subject to such restrictions as may be imposed by the authorities of that country.

4. Routing, classes of service and rate information for Alaska, Bahamas, Bermuda, Dominican Republic, Hawaii, Jamaica (including Cayman Islands), Midway, Puerto Rico, Virgin Islands and (T) (x) Wake are to be found in the respective Operating Rate and Route Guides for these points.

5. Where applicable, service with a country or area shown in the list includes service with vessels which can be reached through the land radiotelephone stations of the particular country or area. The rate is the sum of the Person-to-Person rate shown plus the rates of the other carriers from the serving land radiotelephone station in the overseas country or area to the vessel. The Report Charge is the sum of the report charge shown plus the Report Charge of the other carriers applicable between the serving land radiotelephone station in the particular country or area and the vessel.

B. HOURS OF SERVICE

1. Service to certain overseas points is available 24 hours a day and to other points for limited periods of the day.

An overseas call received at any hour of the day should be passed promptly to the appropriate Overseas Operator who will advise if service conditions will affect the completion of the call.

(x) Turks Island now listed in alphabetical order on following pages.

OVERSEAS TELEPHONE SERVICE**INSTRUCTIONS (Continued)****C. ROUTING**

1. The Overseas Operators to which calls for various countries or areas should be passed are indicated in the listing for the particular country or area. The originating Toll Center Operator should reach the Overseas Operator using the appropriate dial routing code. The Overseas Operator will obtain details of the call and assume responsibility for ticketing and timing.

2. If the country or area concerned is not found in the list, the customer should be advised that no service is available to the specified country or area.

3. Offices with International Originating Toll Center Operation should consult the Overseas Telephone Service—IOTC and IDDD Guide. (N)
(N)

D. CLASSES OF SERVICE

1. Calls are accepted for either a specified person or a specified telephone, the rate being the same in either case except for those countries or areas where Station-to-Station and Person-to-Person rates apply as specified in the listing.

Calls may be filed for completion at a later time with the understanding that while they cannot be handled on the regular Appointment Call basis, an effort will be made to complete them as near as possible to the time requested by the calling party provided the time requested is within the service period. No additional charge will be made for this service.

2. The Telephone Company does not undertake to bring to a telephone a called person who cannot be reached at a telephone connected with the Bell System. However, at the request of the calling party, the Telephone Company, when possible, will arrange on behalf of the calling party, for messenger service; that is, a messenger or other means to notify the party of the call. No additional charge is made for this service.

3. Collect Calls and Credit Cards are accepted as indicated in the listing. The time at the calling station governs the rate applicable. Calls which are charged to called telephones in United States Mainland are charged at the rates specified herein.

E. INITIAL AND ADDITIONAL PERIODS

1. The Initial Period for any message is 3 minutes. Initial Period rates apply to conversations of 3 minutes or less.

2. The Additional Period is for 1 minute. Additional Period Rates apply to each minute or any fraction thereof of conversation in excess of the Initial Period.

3. The Initial and Additional Period rates which apply to service with the various countries or areas are specified in the listing.

OVERSEAS TELEPHONE SERVICE INSTRUCTIONS (Continued)

F. RATES

1. A United States Rate Area (U.S. Rate Area) has been assigned to the District of Columbia and all states within the conterminous United States as follows:

	<u>U.S. Rate Area</u>		<u>U.S. Rate Area</u>
Alabama	M	Nebraska	E
Arizona	H	Nevada	H
Arkansas	K	New Hampshire	A
California	H	New Jersey	A
Colorado	I	New Mexico	I

4. Evening and Saturday rates apply on calls between United States Mainland and Puerto Rico and Virgin Islands. The hours during which these rates are in effect are published in the respective Operating Rate and Route Guides.

Evening, Late Night and Saturday rates apply on calls between United States Mainland and Alaska. The hours during which these rates are in effect are published in the Alaska Operating Rate and Route Guide.

Evening and Saturday rates also apply on calls between United States Mainland and Panama. The hours during which these rates are in effect are as indicated in the listing for Panama.

Saturday rates apply during the entire service period on Saturdays on calls between United States Mainland and the following countries:

Guatemala (C)

Israel

Morocco

5. Sunday rates apply during the entire service period on Sundays except on calls to and from Germany. For service with Germany Day rates apply on Sunday except during those hours on Sunday night when Night rates apply as designated in F. 3.

6. On all calls the time at the calling station governs.

OVERSEAS TELEPHONE SERVICE**INSTRUCTIONS (Continued)****G. REPORT CHARGES**

1. Report Charges are charges for uncompleted calls which the Telephone Company and the other Company have made proper and reasonable effort to complete, but which could not be completed owing to circumstances beyond their control.

2. A Report Charge as indicated in the listing applies under the following circumstances:

- (1) When, after the called telephone has been reached, the called party is not available, or refuses to talk, or refuses to accept the charges in the case of a collect call; provided a report is given to the calling station within the time limit.
- (2) When, after the called party has been reached the calling party is not available, or refuses to talk, or the calling station fails to answer; provided a report is obtained within the time limit.
- (3) When, on a call filed for completion at a later time, the called party has been notified to expect the call.
- (4) When, on a call for a person who is not a telephone subscriber, arrangements have been made to notify him to come to a telephone.
- (5) When charges have been reversed (Collect Calls)
 - (a) the called party does not accept the charge; provided a report is given to the called station within the time limit, or
 - (b) the charges have been accepted by the called party, and the calling party is not available, or refuses to talk or the calling station fails to answer; provided a report is obtained within the time limit.

3. The time limit is one hour from the time the call is given to the operator, except that where a call is filed for completion at a later hour, the time limit is computed from the requested time for completion of the call. If within one hour of such filing or of such specified completion time, as the case may be, conditions or circuit availability indicate a delay of 30 minutes or more is to be expected, and notice of the expected delay is posted at the switchboard and given to the calling party, the amount of the expected delay is added to such time limit.

4. In no case is a Report Charge made in addition to the message charge on the same call.

5. Only one Report Charge is made on any one call except as designated in A.5. In case more than one Report Charge would be applicable on the same call, the highest such Report Charge applies.

6. The Report Charge designated applies to all classes of service and all periods of the day.

7. The Overseas Operator will advise the calling party when a Report Charge applies.

OVERSEAS TELEPHONE SERVICE**INSTRUCTIONS (Continued)****H. COMPUTATION OF RATES AND CHARGES****1. To determine an Overseas rate:**

- a. Refer to the alphabetical list of countries or areas and locate the called country.
- b. In the column headed "U.S. Rate Area", determine if a specific U.S. rate area applies for service with the overseas point.

Where no U.S. Rate Area is listed—the Class of Service, Initial and Additional Period rates shown applies for service from all U.S. Rate Areas to the overseas point.

Where a specific U.S. Rate Area is listed—refer to F. 1. and obtain the U.S. Rate Area applicable to the calling station. Locate that rate area in the listing and adjacent to that rate area the Class of Service, Initial and Additional Period rates shown applies for service to the overseas point.

2. For calls over 3 minutes, refer to the Overseas Rate and Computed Charge Table. Select the desired Initial Period rate with the proper Additional Period rate, the number of minutes timed for the call and obtain the total charge for the call.

3. No Report Charge applies unless indicated in the listing. Where a Report Charge is shown, the same Report Charge applies for all classes of service and for all periods of the day.

4. Messages are timed by the Overseas Operator who controls the call.
