GENERAL INSTRUCTIONS

EXPLANATION OF ABBREVIATIONS AND SYMBOLS

The following symbols and abbreviations are used throughout the Operating Rate and Route Guides and have significance as indicated:

- rd* - - - - - "Ringdown." Denotes a tributary office at which connection to numbers is made by operators, and from which cord lamp supervision is not returned to the toll center.
- PBX* - - - - - Denotes a location served by a Private Branch Exchange. The route shown is the route direct to the PBX attendant.
- ts* - - - - - "Toll Station."
- ✓ 8, 9 - - - - - "Check 8 and 9." Indicates the thousand series in which coin telephones are located, for checking on collect calls.
- ✓ - - - - - "Check All Numbers." Indicates that collect calls to all telephone numbers are to be checked. The absence of a check sign following the listing of a dial point indicates that no checking is required.
- ★ - - - - - Dial "NUMBERS" NPA+181 for directory assistance.
- † - - - - - Indicates a point not customer dialable for IDDD (N)
- # - - - - - Operate start key and wait for sender tone—IOTC dialing.
- NPA - - - - - "Numbering Plan Area."
- (*C. ofc. Exception*) - Indicates a central office which takes a different routing than the exchange or rate center with which it is associated.
- Cert. subs. [place]* - - Indicates that certain subscribers are served by the exchange name in the notation.
- (*thru [place]*) - - - Indicates that the toll station is reached through the tributary named, rather than directly from the toll center.
- [name] (*Co.*) - - - The County or Parish is named where necessary to differentiate between
- [name] (*Par.*) - - - exchanges or localities having the same name.

GENERAL INSTRUCTIONS

EXPLANATION OF ABBREVIATIONS AND SYMBOLS (Continued)

(Name)	Following a dial routing code, indicates the name of an intermediate operator who will answer, and to whom further routing directions will be passed.	
(Name) Name - - -	If the (Name) entry is not followed by another name, the terminating place name will be passed to the intermediate operator. If the (Name) entry is followed by another name, that name will be passed to the intermediate operator and the terminating place name passed to the next operator who answers.	
+ - - - - -	The appearance of a "+" sign following a dial routing code as in any of these symbols, indicates that telephone numbers and operator numbers at the terminating exchange may be dialed. The designation "7D" indicates that the entire telephone number consists of 7 digits, which may be 7 numerals or 2 letters and 5 numerals.	
+ 7D - - - - -		
Canada - - - - -	All provinces, the Northwest Territories and the Territory of Yukon.	
CDR - - - - -	Coordinate Differences Rate.	
Dial S-S - - - - -	Dial Station-to-Station.	
H - - - - -	Horizontal Coordinate.	
IDDD - - - - -	International Direct Distance Dialing.	(N)
IOTC - - - - -	International Originating Toll Center.	(N)
Mexico - - - - -	The Country of Mexico and the Territory of Lower California.	
O.L. - - - - -	"Other Line" Rate.	
Opr. S-S - - - - -	Operator Station-to-Station.	
Per. to Per. - - - - -	Person-to-Person.	
Ref. - - - - -	Reference.	
Sta. - - - - -	Station.	
Sta. to Sta. - - - - -	Station-to-Station.	
Sun. - - - - -	Sunday.	
United States - - -	United States-Mainland, i.e., the District of Columbia and all states except Alaska and Hawaii.	
V - - - - -	Vertical Coordinate.	
V-H - - - - -	Indicates the V coordinates and the H coordinates which identify the exchange rate center.	

GENERAL INSTRUCTIONS

EXPLANATION OF ABBREVIATIONS AND SYMBOLS (Continued)

The following symbols have significance as indicated:

- (C)—To signify changed rate or regulation.
- (D)—To signify discontinued rate or regulation.
- (I)—To signify rate increase.
- (N)—To signify new rate or regulation.
- (R)—To signify rate reduction.
- (T)—To signify a change in text but no change in rate or regulation.

In addition to the foregoing symbols, the following may appear associated with them or alone. These latter symbols have no significance from a rate or regulation standpoint, but are supplied as an aid in the maintenance of route information and have the following routing significance:

- (m)—To signify a change or deletion in the Mark Sense Code Column.
- (p)—To signify a change in dialing code.
- (w)—To signify a new toll center.
- (x)—To signify a discontinued toll center.
- (y)—To signify a change in toll center column other than a new or discontinued toll center. (T)
- (z)—To signify a change in the classification with respect to "rd".
- ☛—To signify Public Land Mobile Radiotelephone Service.
- ✈—To signify Aviation Service.

GENERAL INSTRUCTIONS

1. Material Contained in the Operating Rate and Route Guide

This material includes:

- a. Operating Rate and Route Guides for each state of the United States, the District of Columbia, each province of Canada, Northwest Territories, the Territory of Yukon and for Mexico. These Guides contain lists of cities, towns, localities and toll stations (hereinafter referred to as points) to which message telephone service is furnished by the Bell System Companies and the Companies with which they connect.
- b. Guides describing Overseas Telephone Service (including lists of countries and areas to which service is available), Public Land Mobile Radiotelephone Service, Ship and Aircraft Radiotelephone Service, Telephone Conference Service, and Special Holiday Service.
- c. These Operating Rate and Route Guides General Instructions.

This material is supplemented by rate charts, and supplementary instructions for determining the rates and routes as required for handling the service.

2. Suggested Arrangement of Material

It is suggested that the material be arranged in the following order:

1. Operating Rate and Route Guides General Instructions.
2. Special Holiday Service Guide (includes service on Christmas Day, Independence Day, Labor Day, New Year's Day and Thanksgiving Day).
3. Operating Rate and Route Guides for each state of the United States, Provinces and Territories of Canada and for Mexico, Overseas Telephone Instructions, Antigua, Bahamas, Barbados, Bermuda, Cayman Islands, Dominica, Dominican Republic, Jamaica, Midway, Montserrat, Puerto Rico, St. Kitts, St. Lucia, St. Vincent, Tortola, Virgin Islands and Wake. (T)

The remaining Guides and routing instructions should be arranged in the order most suitable to operating convenience and efficiency, depending on local conditions and requirements.

3. Reprints and Changes

- a. Reprints. Reprints of pages of the various Guides will be issued when considered expedient to do so, and all existing material which is replaced by the revisions should be removed.
- b. Changes. Changes in the listings of points will be made in revisions of pages of the Guides.
- c. Routine for Reporting Changes and Requests for Replacement of Material.

All inquiries or recommendations for additions and changes in listings other than dial route information, should be made via appropriate channels as covered by local instructions, to the Administrator Rates and Tariffs, American Telephone and Telegraph Company, Long Lines Department, 32 Avenue of the Americas, New York, New York 10013, Attention: Tariff Engineer.

GENERAL INSTRUCTIONS

All inquiries or recommendations for additions and changes involving dial routes and requests for additional or replacement materials or changes in the address for the distribution of this material should be made via appropriate local channels to the Traffic Routing Engineer, American Telephone and Telegraph Company, Long Lines Department, 811 Main Street, Kansas City, Mo. 64141. (Form TAW-222 is available for use in ordering additional or replacement material.)

4. **Coast Guard Stations, Light Stations and Naval Radio Stations** are listed alphabetically under the names by which they are known. The route to such a point should be determined from the information which appears with the listing of the point, as frequently the route differs from the route to the locality of the same name.
5. **Rates and Charges.** The regulations governing rates and charges, other than for Overseas Telephone Service, Public Land Mobile Radiotelephone Service, Ship and Aircraft Radiotelephone Service and Telephone Conference Service are given in Paragraphs 10. through 15.(T) following. The regulations and rates applicable to Overseas, Public Land Mobile, Ship and Aircraft and Conference Service are given in the respective Guides for these services.

ROUTING INSTRUCTIONS

GENERAL

6. **Listing of Points.** Each page is divided horizontally. Rate Centers (including toll stations) are listed in the upper portion, together with related rate and route information. The names which are shown in heavy-faced type indicate that such points are Toll Centers. Localities are listed in the lower portion, and are cross-referenced to the "Exchange—Rate Center" with which they are associated.
7. **Locating Called Point.** Look for the place in the "Exchange—Rate Center" column in the upper portion of the pages for the state, province or territory involved. If the called place is not found in the upper portion, find the name in the "Locality" column in the lower portion, determine the "Exchange—Rate Center" involved, and locate the latter in the upper portion.
8. **How to Find a Route.** If a dial routing is shown in the columns headed "NPA Route—Numbers, Operators," use the dial route listed in the NPA route columns of the Guide. If no NPA route is listed, consult locally provided supplementary list of routes for the route to the toll center serving the called point.
9. **Mark Sense Codes.** The Operating Rate and Route Guide pages list mark sense codes to identify called places which do not have a route consisting of the NPA code and a 2-5 or 7-D number. These mark sense codes facilitate the rating of mark sense toll tickets in the Accounting Department. The mark sense code for non 2-5 exchanges consists of six digits. The first three digits are the NPA code for the area in which the exchange is located and the other three digits serve to identify the exchange itself. For those exchanges which presently have 2-5 or 7-D numbers, but are not reached by dialing the NPA code and the number, the mark sense code is the three digit NPA code in the left side of the column. In these cases the central office prefix identifies the exchange. When a mark sense code is not provided "Oth. Pl." (other place) is shown in this column. This could appear on toll stations and Time O.L. places. (T)

GENERAL INSTRUCTIONS

INSTRUCTIONS FOR DETERMINING RATES AND CHARGES

10. **General.** For use in connection with Long Lines business, each office in the United States is supplied with appropriate Rate and Computed Charge Tables.

“LONG LINES SCHEDULE NO. 1—(Interstate-United States)” Tables apply on all interstate traffic within the conterminous United States.

NOTE: “LONG LINES SCHEDULE NO. 1—(Interstate-United States)”
Tables may also apply on Associated Company business when so
designated by local instructions.

“LONG LINES SCHEDULE NO. 2—(United States-Canada)” Tables apply on international traffic between points within the conterminous United States and points in Canada.

“LONG LINES SCHEDULE NO. 3—(United States-Mexico)” Tables apply on traffic between points in the conterminous United States and points in Mexico.

In general the traffic to Mexico is rated on an “O.L.” basis from points of connection in the conterminous United States.

“O.L.” Computed Charge Tables for Mexico are also supplied to each office.

(T) (x)

GENERAL INSTRUCTIONS

CLASSES OF SERVICE—RATE PERIODS

a. Between points within the conterminous United States:

Service is offered on a Dial Station-to-Station (See Note), Operator Station-to-Station (See Note) and on a Person-to-Person Basis.

Day, Evening, Night and Weekend rates apply to these classes of service as follows:

	DAY Full Rate	EVENING 35% Discount**	NIGHT & WEEKEND 60% Discount**	(T)
DIAL STATION-TO-STATION	Mon. through Fri. 8:00A to *5:00P	Sun. through Fri. 5:00P to *11:00P	Every Day 11:00P to *8:00A Sat. 8:00A to *11:00P Sun. 8:00A to *5:00P	
OPERATOR STATION-TO-STATION	Mon. through Fri. 8:00A to *5:00P	Sun. through Fri. 5:00P to *11:00P	Every Day 11:00P to *8:00A Sat. 8:00A to *11:00P Sun. 8:00A to *5:00P	
PERSON-TO-PERSON	Mon. through Fri. 8:00A to *5:00P	Sun. through Fri. 5:00P to *11:00P	Every Day 11:00P to *8:00A Sat. 8:00A to *11:00P Sun. 8:00A to *5:00P	(T)

NOTE:

DIAL STATION-TO-STATION is that Station-to-Station service where the person originating the call from other than a coin telephone dials the telephone number desired and the call is completed without the assistance of a telephone company operator, except:

when an operator records the originating telephone number where no automatic recording equipment is available;

when an operator records a special identification number, issued by the Telephone Company for its billing purposes to students who reside at dormitories of colleges or universities equipped for Dormitory Centrex Service, for a call placed from a Dormitory Centrex Station;

when an operator reaches the called telephone number where facilities are not available for dial completion;

when an operator places a call for a calling party who identifies himself as being handicapped and unable to dial the call because of his handicap; and

when an operator reestablishes a call which has been interrupted after the called number has been reached.

Dial Station-to-Station rates do not apply on calls originating from coin telephones or on calls where any special service is provided such as collect, third number, credit card, special billing, notification, or reporting time or charges.

OPERATOR STATION-TO-STATION is that Station-to-Station service other than Dial Station-to-Station.

Operator Station-to-Station rates apply on calls placed from coin telephones and on calls where special services are provided. Special services include collect, third number, credit card, special billing, notification or reporting time or charge.

On calls paid for by coin deposit in a coin telephone the charge is the sum, rounded to the nearer multiple of \$.05, of the appropriate initial period rate and additional minute charge.

*TO but not including.

**DISCOUNTS of 35% for the Evening rate period and 60% for the Night & Weekend period apply to total charges for Dial Station-to-Station messages and to total additional minute charges only for Operator Station-to-Station and Person-to-Person with total charge rounded down to the lower cent.

(N)

(N)

GENERAL INSTRUCTIONS**b. Between points within the conterminous United States and Canada:**

Three classes of service are offered; namely, Dial Station-to-Station (see note), Operator Station-to-Station (see note) and Person-to-Person Service.

Day, Evening & Sunday, and Night rates apply to the three classes of service.

- (1) To the United States portion of the charge, and to those points in Canada where NO "Other Line" charge applies:

	<u>DAY</u> <u>Full Rate</u>	<u>EVENING & SUNDAY</u> <u>35% Discount**</u>	<u>NIGHT</u> <u>60% Discount**</u>
DIAL STATION-TO-STATION	Mon. through Sat. 8:00A to *6:00P	Mon. through Sun. 6:00P to *12:00MID	Sun. 8:00A to *6:00P
OPERATOR STATION-TO-STATION	Mon. through Sat. 8:00A to *6:00P	Mon. through Sun. 6:00P to *12:00MID	Sun. 8:00A to *6:00P
PERSON-TO-PERSON	Mon. through Sat. 8:00A to *6:00P	Mon. through Sun. 6:00P to *12:00MID	Sun. 8:00A to *6:00P
			All Days 12:00MID to *8:00A

- (2) To the Canada "Other Line" portion of the charge:***

	<u>DAY</u>	<u>NIGHT & SUNDAY</u>	<u>WEEKEND</u>
STATION-TO-STATION & PERSON-TO-PERSON	Mon. through Sat. 6:00A to *6:00P	Mon. through Sat. 6:00P to *6:00A	Sun. All Hours

(T)

(T)

NOTE:

DIAL STATION-TO-STATION denotes a call dialed and completed by the customer from a residence or business land wire telephone without the assistance of a telephone company operator. The services of a telephone company operator will not be used in connection with completing a call, or in furnishing any information or assistance relating to billing or charges for such call, except that a telephone company operator will:

- reestablish a call which has been interrupted after the called number has been reached, or
- reach the called telephone number where facilities are not available for customer dial completion, or
- place a call for a calling party who identifies himself as being handicapped and unable to dial the call because of his handicap, or
- record a special identification number, issued by the Telephone Company for its billing purposes to students who reside at dormitories of colleges or universities equipped for Dormitory Centrex Service, for a call placed from a Dormitory Centrex Station.

DIAL STATION-TO-STATION rates do not apply on calls originating from coin telephones. Where DIAL STATION-TO-STATION rates apply calls may not be placed on a third number basis.

OPERATOR STATION-TO-STATION is that Station-to-Station service other than Dial Station-to-Station.

Operator Station-to-Station rates apply on calls placed from coin telephones and on calls where special services are provided. Special services include collect, third number, credit card, special billing, notification or reporting time or charge.

On calls paid for by coin deposit in a coin telephone the charge is the sum, rounded to the nearer multiple of \$.05, of the appropriate initial period rate and additional minute charge.

*TO but not including.

**DISCOUNTS of 35% for the Evening & Sunday rate period and 60% for the Night rate period apply to the sum of the initial period and, additional minute charges for Dial Station-to-Station messages with the total charge rounded down to the lower cent. Minimum charge per message \$.10.

DISCOUNTS of 35% for the Evening & Sunday rate period and 60% for the Night rate period apply to total additional minute charges for Operator Station-to-Station and Person-to-Person messages with the total charge rounded down to the lower cent.

***EXCEPT for certain locations where Other Line charge is shown for 24 hours per day 7 days a week for all classes. Example: Big Black River, Manitoba, Canada, Time O. L. \$.50-\$.15.

N
N

Effective: July 19, 1975

GENERAL INSTRUCTIONS

c. Between points within the conterminous United States and points in Mexico: (T)

Three classes of service are offered; namely Simple Station (see note), Operator Station-to-Station (see note) and Person-to-Person Service.

Day, Evening, Night, Saturday and Sunday rates apply to the three classes of service.

- (1) To the United States portion of the charge, and to those points in Mexico where NO "Other Line" charge applies:

	<u>DAY</u>	<u>EVENING</u>	<u>NIGHT</u>
SIMPLE STATION	Mon. through Fri. 8:00A to *6:00P	Mon. through Fri. 6:00P to *11:00P and Sat. 8:00A to *11:00P	All Days 11:00P to *8:00A and All Day Sun.
OPERATOR STATION-TO-STATION	Mon. through Fri. 8:00A to *6:00P	Mon. through Fri. 6:00P to *8:00A and All Hours Sat. and Sun.	
PERSON-TO-PERSON	Mon. through Fri. 8:00A to *6:00P	Mon. through Fri. 6:00P to *8:00A and All Hours Sat. and Sun.	

- (2) To the Mexico "Other Line" portion of the charge:

	<u>DAY</u>		<u>NIGHT</u>
STATION-TO-STATION	Mon. through Sat. 4:30A to *7:00P		Mon. through Sat. 7:00P to *4:30A and All Day Sun.
PERSON-TO-PERSON	Mon. through Sat. 4:30A to *7:00P		Mon. through Sat. 7:00P to *4:30A and All Day Sun.

NOTE:

SIMPLE STATION service rates apply only to Station-to-Station sent-paid messages requiring no special operator assistance. Simple Station service denotes a call dialed and completed by the customer, or which could be dialed and completed by the customer if facilities were available for customer dial completion, from a residence or business telephone and the message is not billed to a number other than the originating number. The services of a telephone company operator will not be used in connection with furnishing any information or assistance relating to billing or charges for such message. A telephone company operator will re-establish a call which has been interrupted after the called number has been reached. Simple Station service rates do not apply on collect calls, credit card calls or other calls requiring special operator assistance or on calls placed from a public or semi-public coin telephone. (T)

OPERATOR STATION-TO-STATION is that Station-to-Station service other than Simple Station.

Operator Station-to-Station rates apply on calls placed from coin telephones and on calls where special services are provided. Special services include collect, third number, credit card, special billing, notification or reporting time or charge.

On calls paid for by coin deposit in a coin telephone the charge is the sum, rounded to the nearer multiple of \$.05, of the appropriate initial period rate and additional minute charge. (T)

*TO but not including. (N)

Effective: May 17, 1975

GENERAL INSTRUCTIONS

INITIAL AND ADDITIONAL PERIODS

Rates are quoted in terms of Initial and Additional Periods.

The Initial Period is 3 minutes or any fraction thereof except that the Initial Period for (T)
Dial Station-to-Station rates (Interstate-United States) is 1 minute or any fraction there-
of, and Dial Station-to-Station rates (U.S.-Canada) is 1 minute or any fraction thereof. (T)

The Additional Period is for 1 minute or any fraction thereof.

TIMING OF MESSAGES

The time of day when conversation actually starts determined in accordance with the time, standard or daylight saving—observed at the location of the rate center of the calling station, determines which RATE PERIOD rates apply. This rule applies irrespective of whether the call is sent paid or collect. In cases where a message begins in one rate period and ends in another, the rate in effect at the time the connection is established applies.

On Simple Station, Dial Station-to-Station, and Operator Station-to-Station calls chargeable (T)
time begins when connection is established between the calling station and the called station,
Miscellaneous Common Carrier mobile radio system or PBX. (T)

On Person-to-Person calls, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.

Chargeable time ends when the connection is terminated at any point.

Chargeable time does not include time lost because of faults or defects in the service.

NOTE: For rate periods applicable to Overseas Telephone Service, Public Land Mobile Radiotelephone Service, Ship and Aircraft Radiotelephone Service and Telephone Conference Service, see Instructions in the Guides covering these services.

11. **V-H Coordinates.** In the Operating Rate and Route Guide the columns headed "V" and "H" contain the digits which designate the "V" coordinate and the digits which designate the "H" coordinate for each listed Exchange-Rate Center. "Other Line" information where applicable, is also included with the V and H coordinate listings. This information is used in conjunction with other rate quoting material to determine rates.

GENERAL INSTRUCTIONS

12. Through Line Rates. When the V-H Coordinates Are Listed With No "O.L." Designation "Through Line" Rates apply.

a. Rates determined from a Specific Coordinate Table.

The rate is obtained by determining the V-H coordinates for the distant rate center, and then reading these coordinates into the originating rate center's Table of Coordinates. The Index thus obtained is converted into the desired rate by use of the appropriate Index to Rate Table.

EXAMPLE I. The charge is desired for a 5 minute DAY Operator Station-to-Station message from Boston, Massachusetts to Abilene, Texas.

- (1) Refer to the Operating Rate and Route Guide for Texas to obtain the V-H coordinates for Abilene which are (V) 8698 (H) 4513.
- (2) Locate the coordinates for Abilene on the Table of Coordinates for Boston and find the related Indexes which are V Index 134 and H Index 127.
- (3) Refer to the Index to Rate Table for Interstate Message Telephone Service to determine the rate associated with the Indexes obtained in (2) above. In this instance the larger Index 134 is used to locate the proper rate group. Within the rate group the desired rate is listed next to the actual smaller Index, or, if this Index is not shown, the rate associated with the next higher Index in the same column is used.

INDEX		Rate
L	S	
134	133	1.90
	134	1.95

- (4) In this instance since the lesser Index 127 is not specifically listed, the next higher Index 133 is used and the initial period DAY Operator Station-to-Station rate is found to be \$1.90.

The charge for 5 minutes determined from the Computed Charge Table is \$2.66.

b. Rates Determined from a Coordinate Differences Rate (CDR) Table.

When Specific Coordinate Tables are not available, rates may be obtained by using the CDR Table. The differences between the V-H coordinates of the originating rate center and the terminating rate center are computed.

These Coordinate Differences are converted into the desired rate by a direct reading of these differences into the appropriate CDR Table.

EXAMPLE II. The charge for a 5 minute DAY Operator Station-to-Station message between Boston, Massachusetts and Abilene, Texas is desired.

- (1) The V-H coordinates for the points involved are listed in the Operating Rate and Route Guide as:

	V	H
Abilene, Texas	8698	4513
Boston, Massachusetts	4422	1249

- (2) The lesser "V" coordinate is subtracted from the greater "V" coordinate and a similar "H" coordinate subtraction is made.
- (3) The "V" difference is 4276. The "H" difference is 3264.
- (4) When the Coordinate Differences are read into the CDR Table for Interstate Message Telephone Service, the DAY Operator Station-to-Station rate is found to be \$1.90.

The charge for 5 minutes determined from the Computed Charge Table is found to be \$2.66.

GENERAL INSTRUCTIONS

13. "Other Line" Rates.

Charges for message telephone service to and from certain points are on an "Other Line" basis. The listing for such points in the Operating Rate and Route Guide contains the V-H Coordinates for the point of connection followed by "Time O.L."

The "Other Line" rate information shown in the listing may indicate (as in the case of points in Mexico) that different "Other Line" rates apply for designated classes of service or designated periods of the day or both. (T)

"Time O.L." (Time Other Line) indicates the method by which the charge to such point is computed as follows:

The computed charge for the given length of conversation is determined separately for the "Other Line" amount in accordance with the "Other Line" rate information shown in the listing and is never obtained from the regular Computed Charge Table. The "O.L." charge is added to the computed charge as determined by V-H coordinates for the point of connection which is found separately in the usual way. The length of the initial period on the "O.L." rate is 3 minutes or fraction thereof, and the additional period rate immediately following is for 1 minute or fraction thereof.

GENERAL INSTRUCTIONS

EXAMPLE III. The charge for a 5 minute EVENING Operator Station-to-Station message from New York, New York to Offshore, La. is desired.

The listing for Offshore is shown in the Operating Rate and Route Guide as follows:

V	H	EXCHANGE— RATE CENTER
8624	2808	+ Time O.L. \$3.00 - 1.00 Offshore

The initial period DAY Operator Station-to-Station rate applicable between New York and Offshore is determined in the usual manner for Interstate Message Telephone Service and is found to be \$1.85. The corresponding EVENING Operator Station-to-Station rate as shown in Long Lines Schedule No. 1—(Interstate-United States) is \$1.85. By reference to the Computed Charge Table the charge for 5 minutes Evening Station-to-Station is found to be \$2.31. The "Time O.L." computed charge for 5 minutes at the "O.L." rate of \$3.00 - 1.00 is \$5.00. The sum of the two computed charges, \$2.31 and \$5.00 is \$7.31, the total charge for a 5 minute EVENING Operator Station-to-Station message.

Discounts of 35% for the Evening rate period and 65% for the Night & Weekend rate period apply to total charges for Dial Station-to-Station messages and to total additional minute charges only for Operator Station-to-Station and Person-to-Person with total charge rounded down to the lower cent.

EXAMPLE IV. The charge for a 10 minute NIGHT Station-to-Station message from New Orleans, Louisiana to Mexico City, Federal District, Mexico is desired.

The listing for Mexico City is shown in the Operating Rate and Route Guide as follows:

V	H	EXCHANGE— RATE CENTER
9681	4099	MEXICO CITY
+ Time O.L.		
		Sta. to Sta. Per. to Per.
Day		\$2.45 - .80 \$3.80 - .80
Night & Sun.		\$1.80 - .60 \$2.80 - .60

(T)

The initial period DAY Station-to-Station rate applicable between New Orleans and the V-H coordinates for the point of connection for Mexico City is determined in the usual manner for United States-Mexico Message Telephone Service and is found to be \$1.35. The corresponding NIGHT Station-to-Station rate as shown in Long Lines Schedule No. 3—(United States-Mexico) is found to be \$1.05. By reference to the Computed Charge Table the charge for 10 minutes is found to be \$2.45.

By reference to the "Mexico Other Line Computed Charge Table" the computed charge for 10 minutes shown opposite the initial period rate of \$1.80 for Station-to-Station NIGHT with a corresponding additional minute rate of \$.60 is found to be \$6.00. The sum of the two computed charges \$2.45 and \$6.00 gives \$8.45 as the total charge for a 10 minute NIGHT Station-to-Station message.

GENERAL INSTRUCTIONS

14. Reversal of Charges (Collect Calls). Collect calls are accepted for all classes of telephone service as follows:

- (1) between points within the conterminous United States except calls to which Dial Station-to-Station rates apply and calls to Offshore, La.,
- (2) between points within the conterminous United States and points in Canada except calls to which the DIAL STATION-TO-STATION rate applies, and (T)
- (3) between points within the conterminous United States and points in Mexico except calls to which the Simple Station service rates apply. (T)

Additional charges may apply on Collect Calls between points within the conterminous United States and points in Canada as set forth in Long Lines Schedule No. 2—(United States-Canada) Rate Table.

Additional charges may apply on Collect Calls between points within the conterminous United States and points in Mexico as specified in the Operating Rate and Route Guide for Mexico.

Regulations applicable to Collect Calls for Conference, Overseas, Public Land Mobile and Ship and Aircraft Telephone Services are as set forth in the respective Guides for these services.

15. Credit Cards. Bell System Credit Cards are accepted for all classes of telephone service as follows:

- (1) between points within the conterminous United States except calls to which Dial Station-to-Station rates apply,
- (2) between points within the conterminous United States and points in Canada except calls to which the DIAL STATION-TO-STATION rate applies, and (T)
- (3) between points within the conterminous United States and points in Mexico except calls to which the Simple Station service rates apply. (T)

Credit Card information applicable to Overseas Telephone Service is covered in the Overseas Telephone Service Rate and Route Guide.

THE INTERNATIONAL BUREAU OF
STATISTICS
OF THE
LIGUE INTERNATIONALE
STATISTIQUE

The International Bureau of Statistics is an organization of statisticians from various countries, which has been established for the purpose of promoting the development of statistics in all countries, and of securing the uniformity of statistical methods and standards, and of facilitating the exchange of statistical information between the various countries.

The Bureau was founded in 1900, and since that time it has been engaged in a constant effort to improve the methods of statistical collection and presentation, and to secure the uniformity of statistical standards. It has also been engaged in the work of collecting and publishing statistical information from the various countries, and of facilitating the exchange of statistical information between the various countries.

The Bureau has been successful in its efforts to improve the methods of statistical collection and presentation, and to secure the uniformity of statistical standards. It has also been successful in its efforts to collect and publish statistical information from the various countries, and to facilitate the exchange of statistical information between the various countries.

The Bureau is now engaged in the work of collecting and publishing statistical information from the various countries, and of facilitating the exchange of statistical information between the various countries.

Service with Hawaii includes service with vessels which can be reached through its land radiotelephone stations. The rate is the sum of the Person rate shown plus the rates of the other carriers from the serving land radiotelephone station in Hawaii to the vessel. The Report Charge is the report charge of the other carriers applicable between the serving land radiotelephone station in Hawaii and the vessel.

*One minute initial period—Dial type telephone communication.

Dial type telephone communication—same as DIAL-STATION-TO-STATION (see General Instructions page 7 CLASSES OF SERVICE)

COLLECT CALLS: (1) TO and FROM United States Mainland.

CREDIT CARDS: (2) Hawaii accepts Bell System Credit Cards.

(3) Credit Cards issued by Hawaii are accepted on calls to all points to which bell System Credit Cards are accepted.

NOTE: On calls from United States Mainland to Hawaii—Day, Evening, Night, Saturday or Sunday rates are in effect at hours specified above—Time at originating telephone in United States Mainland governs.

On calls from Hawaii to United States Mainland—Day, Evening, Night, Saturday or Sunday rates are in effect at hours specified above—Time at originating telephone in Hawaii governs.

No additional charge is applicable for messenger service.

SPECIAL HOLIDAY SERVICE

Saturday and Sunday rates apply on Christmas Day (December 25) and New Year's Day (January 1) or on the resulting legal holidays when Christmas and New Year's Day legal holidays fall on dates other than December 25 or January 1 respectively.
